Current Perspectives consists of selected articles from the current journal literature, focusing on systematic reviews, best practice models, and innovative approaches. Also featured are new resources added to the J.W. Crane Memorial Library, as well as selected Internet resources. Updated when new material is available.

If you are able to access University of Manitoba Library electronic resources, you may retrieve articles in this list by using the RefShare link below, and then clicking on:

On the Net...

This GeriPod broadcast is the fourth episode in a six-part series on Mental Health and Aging. The podcast focuses on development and progression of common behavioral problems associated with dementia. Treatment strategies for managing these behaviors as well as looking at the evidence for and risks associated with a variety of pharmacologic treatment options are discussed.
