Current Perspectives in the Literature on Pain Management in Long-Term Care from the J.W. Crane Memorial Library

Current Perspectives consists of selected articles from the current journal literature, focusing on systematic reviews, best practice models, and innovative approaches. Also featured are new resources added to the J.W. Crane Memorial Library, as well as selected Internet resources. Updated when new material is available.

If you are able to access University of Manitoba Library electronic resources, you may retrieve articles in this list by using the RefShare link below, and then clicking on:
